

Party Animals

Jebroer

We're not afraid, we want the dark
'Cause in the night we fall apart
Under a heaven full of stars
We become monsters, become monsters
We're not afraid till the sun comes up
But in the morning we are fucked
Only at night under the stars
We become monsters, become monsters

We are fucking party animals (monsters)
Party animals (monsters)
Party animals (monsters)
Party animals (monsters)
We are fucking party animals (monsters)
Monsters (monsters)
Monsters (monsters)
Monsters (monsters)
(Mon...)
Yellow motherfucking Claw

We are fucking party animals

Fighting my demons, never needed a reason (nah)
All four seasons, I'm leaving, the opps bleeding
458 Spider spider, it's murder for hire
Pour gasoline in the fire and watch it just grow higher
We are the monsters, yeah, we the monsters
[?] on the dracos, guns coming like contras
We are the monsters, yeah, we the monsters
[?] on the dracos, guns coming like contras

We're not afraid, we want the dark
'Cause in the night we fall apart
Under a heaven full of stars
We become monsters, become monsters
We're not afraid till the sun comes up
But in the morning we are fucked
Only at night under the stars
We become monsters, become monsters

Animals
Party animals
Animals
Party animals
Animals
Party animals
We are fucking party animals

We're not afraid till the sun comes up
But in the morning we are fucked
Only at night under the stars
We become monsters, become monsters
