

Can't We Start Over Again

Jed Madela

It's been a long long while
I know I've caused you pain
Living without you it's not quite the same
Can't we start over again?

I've played around too long
Running from end to end
Took you for granted I've been such a fool
Can't we start over again?

All through my life of seasons
No matter how far I roam
Always there's something missing inside
Yearning to come back home
You are the one I return to
Love, only love leads the way
Give us this chance to start over again
Darling, I'm coming home to stay
