

## Everyday

Jed Madela

Got a letter in the mail today  
And I'm glad you're doin' fine  
You tell me you're missing me  
And it's cold in New York City

We and the kids we're alright  
Thinking about you night after night  
And if you feel the same way too  
Just imagine me whispering to you

Everyday I'll always love you  
Everyday I'm always thinking of you  
Everyday's another lonely day without you  
Everyday you'll here beside me  
Everyday I'm always dreaming of you  
Everyday I will be right here waiting for you

It's another long and sleepless night  
And thoughts run through my mind  
Guess I'm just feeling lonely  
It's been so empty since you've been gone

I'll holding on for it won't be long  
I'll be counting the days till I see you home  
I know you feel the way I do  
So just remember those words I'll say to you

Everyday I'll always love you  
Everyday I'm always thinking of you  
Everyday's another lonely day without you  
Everyday you'll here beside me  
Everyday I'm always dreaming of you  
Everyday I will be right here waiting for you

Everyday, oh...
