

# I Believe In You

Jed Madela

I always thought that  
Life was sad for someone who's not free  
I felt the chains binding me  
From things I want to see  
When you came, you changed it all  
I've never felt the same  
I'd hate the thought of losing you  
There's so much more to gain

I believe in love  
I believe in you  
I believe in everything  
The two of us can do  
I believe in miracles  
I've seen them all come true  
So won't you take a chance with me  
'Cause I believe in you

One night I looked upon the stars  
And saw one shining bright  
Guiding me through all these times  
When nothing would seem right  
Now I've come to realize there's no one else for me  
'Cause after all the pain I felt  
You've come to set me free

I believe in love  
I believe in you  
I believe in everything  
The two of us can do  
I believe in miracles  
I've seen them all come true  
So won't you take a chance with me  
'Cause I believe in you (in you...)

I believe in everything  
The two of us can do  
I believe in miracles  
I've seen them all come true  
So won't you take a chance with me  
'Cause I believe in you  
I believe in you...
