

Follow My Whispers

Jedward

You gotta follow my whispers in the dark
Its okay babe, we all have scars
Let me hold your body in my arms
You gotta follow, follow my whispers in the dark

What we have it feels so real
I want you so bad, can we make a deal?
You're the drop of perfect I've been looking for
Oh, you taste so good, gimme a little more

Tonight no part of me will apologise
I'll give you what you want, take you to paradise
Cause nobody understands you like I do
You gotta follow, follow my whispers in the dark

You gotta follow my whispers in the dark
Its okay babe, we all have scars
Let me hold your body in my arms
You gotta follow, follow my whispers in the dark

Oh, this river of emotions goes so deep
You gotta follow, follow my whispers in the dark
I gotta hold you close and protect my queen
You gotta follow, follow my whispers in the dark
Feel the sensation of my touch
Oh, its all you need, I know you crave this kiss
You place your hands upon my chest
And let our bodies do the rest

Tonight no part of me will apologise
I'll give you what you want, take you to paradise
Cause nobody understands you like I do
You gotta follow, follow my whispers in the dark

You gotta follow my whispers in the dark
Its okay babe, we all have scars
Let me hold your body in my arms
You gotta follow, follow my whispers in the dark
