

# Chamomile

Jeff Bernat

I think you're better with the lights on  
But I'll take you any type of way  
The way you soothe me all night long  
The perfect way to end the day  
Girl, I need you like some hot tea  
You fill my cup like nothing else  
Don't need to mix you with no others  
I'll take you by yourself

You just got a peaceful kind of love  
And I can't get enough  
Chamomile, chamomile  
Been looking for you in a pile for awhile  
I'm glad I found you  
Now there's something about you that keeps steeping  
Chamomile, chamomile  
I need to have you every night, every time  
So what am I to do?  
Girl, you're something I'm gonna need for the rest of my life

There ain't no thing as way too much  
And I don't care that you could be dangerous  
You're burning me with every touch  
And ooh, you got my body feeling warm now  
You got a way to quench this thirst  
I swear you're better every sip  
I love to feel you on my lips

You just got a peaceful kind of love  
And I can't get enough  
Chamomile, chamomile  
Been looking for you in a pile for awhile  
I'm glad I found you  
Now there's something about you that keeps steeping  
Chamomile, chamomile  
I need to have you every night, every time  
So what am I to do?  
Girl, you're something I'm gonna need for the rest of my life
