

## Distant Lover

Jeff Bernat

We started out as friends  
But all along you were a distant lover  
See I haven't felt this in so long  
Again I don't know what to say  
It's like you took my whole world down under  
And changed everything

See I just wanna kiss and dance and hold your hand  
And make you understand  
That all I wanna do is spend my time with you

Cause we both know we're more than friends  
I hope it never ends  
See all I'm tryna say is I need you everyday  
And more than just a thing tonight

More than just a thing tonight

Love feels like it's so damn hard to find  
Trying my best to not be so hopeless  
But sometimes I feel like I'm running out of time  
Until you came around  
It took a while to clean up this whole mess  
I was lost but now I'm found

Now I just wanna kiss and dance and hold your hand  
And make you understand  
That all I wanna do is spend my time with you

Cause we both know we're more than friends  
I hope it never ends  
See all I'm tryna say is I need you everyday  
And more than just a thing tonight

More than just a thing tonight
