

# Dream Team

**Jeff Bernat**

I feel your style and I'm digging your body too  
See baby girl you're the type to make a man  
A little crazy over your sexiness  
See lady, your stilo just ain't the ordinary type  
On top of that you got a perfect smile  
And the way that your eyes just complement can make a man go wild  
See no other guy will do you like I do  
And we all got a past but babe we also got a future too

I'm all about it if you really down  
Time is just ticking, let's not wait around  
You are my team lady how does it sound?  
Just take my hand let's do this  
Playing together 'till we score a goal  
Championship with you is possible  
Being a captain and being the coach  
Just take my hand let's do this

If you miss a shot  
Then I'll get your rebound  
I'll make sure that you're the MVP  
Just a part of the league vow  
We'll both get a ring  
And play overseas too  
And when we'll get old we'll both retire  
My trophy will be you

I'm all about it if you really down  
Time is just ticking, let's not wait around  
You are my team lady, how does it sound?  
Just take my hand, let's do this  
Playing together 'till we score a goal  
Championship with you is possible  
Being a captain and being the coach  
Just take my hand, let's do this

Play the impossible and do the impossible  
And there might be some haters too  
And we'll battle with enemies  
If we do the right place and  
We're on the same page  
We can score, we can win  
World renowned dream team

I'm all about it if you really down  
Time is just ticking, let's not wait around  
You are my team lady, how does it sound?  
Just take my hand, let's do this  
Playing together 'till we score a goal  
Championship with you is possible  
Being a captain and being the coach  
Just take my hand, let's do this
