

## Higher

Jeff Bernat

Let it relax your mind  
Said you can relax your mind  
It ain't nothing but another time to row  
Tell me lady, would you like to, like to row?  
Don't even trip, we can keep it on the low  
Ain't nobody even got to, got to know  
Through the alleys and the clouds away we go  
Let the ride make you sway deep in your soul  
It's whatever, you can take my hand because  
It will take us high

Flowing into my brain, all over  
I'm floating within the sky  
Just let me take another hit of you baby  
Come and check my fame  
I'm addicted to you  
Cause your love can take me high

I want you, I want you  
Bring me up to where you are  
Taking things a little too far  
I need you, I need you  
I'm coming down slowly  
Gotta have you again  
Gotta have you lady  
See what happens when I take another track from you  
You just make a move farther up my back babe  
It's like I'm in ecstasy  
Cause that's what you do to me  
You just take me high

Flowing into my brain, all over  
I'm floating within the sky  
Just let me take another hit of you baby  
Come and check my brain  
I'm addicted to you  
Cause your lips can take me high

Flowing into my brain, all over  
I'm floating within the sky  
Just let me take another hit of you baby  
Come and check my fame  
I'm addicted to you  
Cause your lips can take me high

Flowing into my brain  
She takes me
