

Moonlight Chemistry

Jeff Bernat

You had a couple of drinks tonight
Adios Mother-shhhhhh and a glass of red wine
Hit me up at 2 AM and wanted me to swing by
Ohh woahh oh oh oh yeah

Threw on a pair of sweats tonight
Hopped up in my whip
Started up the engine, 3 miles
Later in your room with vanilla candles and moonlight
Glowing through your curtains

No rush
We can take it slow
Ain't nobody near
And no place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry

Said there is no rush
We can take it slow
Ain't nobody near
And no place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry

Left arms wrapped around ya, uhh
Reflections in the mirror, I
Whisper in your ear and kiss your cheek
Moving bangs to the side, ohh oh-oh oh-oh, oh oh-oh, yeah
Soft kisses on the lips while
We're underneath the covers wondering if there's
Anything that I
Could sorta make you feel as comfortable as possible
Tell me what you want from me
Just as long you're secure

No rush
We can take it slow
Ain't nobody near
And a place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry

Said there is no rush
We can take it slow
Ain't nobody near
And no place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry

Fa laa, fa laa, fa laa, fa laa, fa laa, fa laa
Ohhh, ohh yeah
Ohhh ohhh oohh heyyy yeah

Fa laa, fa laa, fa laa, fa laa, fa laa
There's no need to rush if you can make it feel slow
Heeeyy yeah yeah ohhh oh, hey yeah

Lady, no rush
We can take it slow
Ain't nobody near
And no place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry

Said there is no rush
We can take it slow
Ain't nobody near
And no place we have to go
Let's just slow it down
It's just you and me
There is nothing better than some Moonlight Chemistry
