

## Other Half

Jeff Bernat

See, it's more than a feeling  
But it's something in between that  
All my life I been lied to  
Praying God give me a change  
See it's more like a healing  
Girl you're something  
I've been needing  
Relationships that have fell through  
Then you bring me comfort

When times get hard  
You're my best friend and lover  
You bring me hope  
Being without you I can't imagine, nah  
You healed my heart  
And I know that there's no other  
You deserve to know

That baby I am very grateful for you  
See I know you had a rough past  
And don't think that I forgot that  
Our love wasn't expected  
But somehow we're meant to be  
And there's times when I can look back  
Asking how can I regret that  
All the tears and the heartaches  
Girl you were my shoulder

When times get hard  
You're my best friend and lover  
You bring me hope  
Being without you I can't imagine, nah  
You healed my heart  
And I know that there's no other  
You deserve to know

Who would have known that you'd carry my heart  
This had to have been aligned by the stars  
Challenges we would face  
Somehow we had our faith  
It was a crazy storm  
And now I clearly see  
That it was meant to be  
Without you I'd be torn

When times get hard  
You're my best friend and lover  
You bring me hope  
Being without you I can't imagine, nah  
You healed my heart  
And I know that there's no other  
You deserve to know

When times get hard  
You're my best friend and lover  
You bring me hope  
Being without you, I can't imagine, nah

You healed my heart  
And I know that there's no other  
You deserve to know
