

# West Coast Getaway

Jeff Bernat

Why don't you come visit me  
Spend some time in Cali  
See what's good in Malibu  
You may think that you already know  
How it's in the west coast  
I'll show you a different view  
We can chill out on the beach in Santa Monica  
Drive to the Bay Area  
Take some pictures on the way  
Pop a couple bottles out in Vegas  
Eat a little prime rib  
Let go for a getaway

So hop up in a plane and just escape  
I could book your flight, it ain't a thang  
Cause out here on this side the sun shines  
Just a little different  
It's long over due no more delays  
We'll go out and cruise from state to state  
Cause out here on this side the sun shines  
Just a little different  
(On the west coast  
Set in the best coast  
On verse two)

Why don't we rent a cabin up in Tahoe  
Fish out on a private boat  
Drink a little champagne  
See you'd be lookin' fly and hella sexy  
Up in your bikini  
Got me over here like DAMN  
Maybe take a nap under the palm trees  
Down out in Hawaii  
Watch the sunset on the waves  
Spend the summer in Seattle  
Dinners in the needle  
Let's go for a getaway

So hop up in a plane and just escape  
I could book your flight, it ain't a thang  
Cause out here on this side the sun shines  
Just a little different  
It's long over due no more delays  
We'll go out and cruise from state to state  
Cause out here on this side the sun shines  
Just a little different

Wear stinky shorts, white T in sun house shoes  
I really get dressed, yeah, but I'm about to  
Taco truck thuggin', muggin', order me another  
Same when you're gone undercover  
Smoke about in public  
West coast is for lovers  
Lovers, most is for the summer  
And it say it never rains in Southern California  
Say everybody 'grees, everybody ride it clean  
Got them shemmies on the scene with Writer Magazine

Barbeque's about a pull, this way to the moon, cunt  
We from Califo', bitch you swear from Cal, come  
Weather's cool, more, more the tables turn  
You can learn from school, but you gotta learn the rules  
And I never worry about the weather forecast  
Just don't worry, we don't never worry about gas  
It's electric just like me, you can mention well  
When you sit here and connect and let's just take a sec

So hop up in a plane and just escape  
I could book your flight, it ain't a thang  
Cause out here on this side the sun shines  
Just a little different  
It's long over due no more delays  
We'll go out and cruise from state to state  
Cause out here on this side the sun shines  
Just a little different
