

All Right Now

Jeff Black

All Right Now

I took a trip up to killer city
a little town where I was born
I saw what a life there might have give me
I turned around and high tailed home

it's all right now

I dropped down to see the doctor
he gave me some strange strange news
he said I think you're going to live forever boy
but you're going to die a little bit before you do

help me solve a little mystery
got it right here on the edge of my tongue
help me solve a little mystery
baby while we're young

ain't no futures in the worries
cows out walking in the corn
every night I go to heaven
every morning I am reborn
