

## Come Together

Jeff Healey

Do me some wrong songs make money all the time  
But your fine chocolate ass brings nothing negative to mind  
The sun shines laughter when we live as one  
And there's peace for those who believe in love

I'm so glad we've come together again  
Been thinking 'bout  
You, where you been?  
I've been waiting here on needles  
And Pins and I'm so glad we've come together again  
So glad we've come together

Bad news makes the front page all the time  
But the positive's in small print on page 99  
The sun shines laughter when we live as one

And there's peace for those who believe in love

I'm so glad we've come together again  
Since the way and everything I have been laying low  
But it's good to see my friends  
And I'm so glad we've come together again  
So glad we've come together

O why all the confusion  
When there's such a simple solution?  
In as much as we keep it to ourselves  
We all need each other so let's be together

I'm so glad we've come together again  
4, 3, 2, 1
