

## Hey Allison!

Jeff Rosenstock

She's on the western side looking at the Jersey skyline  
She's in a real bad mood so she couldn't write back to you  
She's had the longest day and it's a gridlocked highway  
She's in a real bad mood so she couldn't write back to you

"Hey Allison! Hey Allison! Hey Allison!  
This city's a total disaster without you around."  
"Hey Allison! Hey Allison! Hey Allison!  
This city's a total disaster without you around."

You spent the days inside avoiding social landmines  
That poke at every bruise  
Is she gonna write back to you?  
You're an exhausted kid of fractured relationships  
You wanna crush that gloom  
Is she gonna write back to you?

"Hey Allison! Hey Allison! Hey Allison!  
This sudden detachment from friendship is making me ache."  
"Hey Allison! Hey Allison! Hey Allison!  
This sudden detachment from friendship is making me ache."
