

Almost Over You

Jeff Satur

You gave me a rose sometime in June
Like when our love was here, fully in bloom
Your flower's now the only trace of you
You became a ghost, and one I know
I've got nobody I can talk to
'Cause everyone but me's forgotten you

So now I take my car on these silent drives
Because I hear our songs and it makes me cry
And all my friends say "All that you need is time"
And I hope they're right

These lonely days keep passing by
Tryna live without your smile
Even if it took a while
I'm almost over you
The rose you gave me's dead and dry
I'll sing one petal out a time
Just like the memories in my mind
I'm almost over you

You're in my bones and on my skin
I found a note in a pocket that you left it in
A sketch of us, a pencil face
We didn't know that things would all end up this way

Take my car on these silent drives
Because I hear our songs and it makes me cry
And all my friends say "All that you need is time"
And I hope they're right

These lonely days keep passing by
Tryna live without your smile
Even if it took a while
I'm almost over you
The rose you gave me's dead and dry
I'll sing one petal out a time
Just like the memories in my mind
I'm almost over you

Almost over looking at your emerald eyes
Almost over how your hand felt close to mine
Almost over looking for your blue car every time I drive

These lonely days keep passing by
Tryna live without your smile
Even if it took a while
I'm almost over you
The rose you gave me's dead and dry
I'll sing one petal out a time
Just like the memories in my mind
I'm almost over you

I'm almost over you
Yeah, I'm almost over you
I'm almost over you
I'm almost over you
