

Doin' Time

Jeff Scott Soto

Insatiable, you come to me
I'm here to set you free
I'm gonna liberate your mind
Leave forbiddance behind

Colour me with everything you do (feeling high & crazy)
Fill you with my se**** taboo, yea yea

We're doing time tonight
We'll burn until the morning light
We're going down tonight
Won't stop until the morning light

Your blatant sexuality
Just say how you want me
Dont think it's just a sensual fling
But you d-define my swing

Show me all the other sides to love (feeling high & crazy)
Show me everything you're really made of

We're doing time tonight
We'll burn until the morning light
We're going down tonight
Won't stop until the morning light
