

# If I Never Let Her Go

Jeff Scott Soto

Time has never been a friend of mine  
Never was in my hands  
I thought I wouldn't wanna say goodbye  
I don't quite understand

Somewhere along the road I lost my faith  
Somewhere, somehow I seemed to lose my way

Now I wouldn't see what she meant to me  
If I never let her go  
I should make a pact but would she take me back  
If I never let her go

Always thought that we could right the wrongs  
Never thought we could lose  
Thru the ups and downs I wasn't that strong  
What did I do?

I guess I don't know what I'm trying to say  
But if u see her won't u point her back this way

Now I wouldn't see what she meant to me  
If I never let her go  
I should make a pact but would she take me back  
If I never let her go

I only hope I didn't wait too long  
Too long to let her know  
Couldn't be sure there's no one else for me  
If I never let her go

Somewhere along the road I lost my faith  
Somewhere, somehow I seemed to lose my way

Now I wouldn't see what she meant to me  
If I never let her go  
I should make a pact but would she take me back  
If I never let her go
