

Take U Down

Jeff Scott Soto

I... don't know what I've done to u
For the things that u put me thru
I deserve to know what's going on

I... I been living with borrowed tears
All the days have now turned to years
Is it too much to ask what went wrong

Where is the love - now the party's over
There is no love - yea

Take u down - down with all the liars
Down where u belong, belong
Shake u down - for putting out my fire
Down where u belong
Down where u belong, belong, belong, belong...

I... don't really understand
With the power in your hand
That u could not simply talk it over

Why... did u have to let me go...
Was it all part of your show?
Did I knock that chip off of your shoulder?

Where is the love - now the party's over
There is no love - yea

Take u down - down with all the liars
Down where u belong, belong
Shake u down - for putting out my fire
Down where u belong
Down where u belong, belong, belong, belong...

Take u down - down with all the liars
Down where u belong, belong
Shake u down - for putting out my fire
Down where u belong
Down where u belong, belong, belong, belong...
