

At A Distance

Jeff Tweedy

On the horizon
Behind the trees
Something's missing
There's something I can't see
And something's missing in me

Over the ocean
To some degree
I'm the same as I
Used to be
At a distance, I'm still me

Before I switch off
Before I go
Before you drift off
Into the unknown
Uncharted waters
Forgotten dreams
Missing moments
Will they all come back to me?

On the horizon
Underneath my shoe
Still I'm bewildered
By the world I'm walkin' through
Something's missing

Over the ocean
Inside the drum
What is there to wish for?
Underneath the sun
Something's missing in me
Something's missing
