

Enough

Jeff Tweedy

Has it ever been enough?
Has it ever been okay?
Have you ever felt full
At the end of the day?

Is your heart high?
Don't lie
Is your heart higher
Than your mind?

Do you feel like you're dyin'
Tracin' a line?
Out on your own
Like a complete unknown

Is your heart tired?
Don't lie
Is your heart hiding
From your fire?

It's hard to stay in love
It's hard to stay in love
It's hard to stay in love
With everyone

Is there anything to say
That could change your day?
I don't care about your thoughts
I just want everything you got

Is your heart still tryin'?
Is your heart still alive?
Is your heart still fightin'
To get out of your mind?

It's hard to stay in love
It's hard to stay in love
It's hard to stay in love
With everyone
