

Guess Again

Jeff Tweedy

Oh, tomatoes right off the line
We used to eat them like that all the time
And if you think that's the best thing
That I ever knew
Guess again, my love
It's you

Riding with the wind blowing in my hair
And the sun shining down everywhere
And if you think that's the best thing
That I can do
Guess again, my love
Guess again, my love
It's for you

Oh, trouble; I can sing it the same
Or just about the same
As any other song you can name

And if you think that that's the main thing
Pulling me through
Guess again, my love
It's you

And if you think that's the best thing
I'll ever do
Guess again
It's you

Maybe you noticed how light I am
Maybe you've been thinking I'm drinking again
Oh, I'm high but there's really
Nothing new
Guess again, my love
Guess again, my love
It's you

Guess again, my love
Guess again, my love
It's you
