

Save It For Me

Jeff Tweedy

Save it for me
When the world falls apart I can say with certainty
There's a reason
A light left on in an empty room
Is how a love can be
A rainbow word in a mouth of clouds
Darkened days
Who needs you now?
A rainbow word in a mouth of clouds
Darkened days
Who needs me now?

Save it for me
When the world falls apart
I can say with certainty
There's a reason
There's a pie left out that you can't consume
So sweet you cannot eat

There's a reason
No one will call today
The people you lean on
Don't always know
What to say
Save it for me
When the world falls apart
I can say with certainty
There's a reason
A light left on in an empty room
Is how a love can be
Is all a love can be
Is all a love can be
Is all a love can be
