

# Don't Let Me Down

Jefferson Airplane

I know there's nothing now that I can't do  
Long as I keep right on lovin' you  
It doesn't matter if the times get tired  
I know that everything will be alright, yeah  
Don't let me down, I just found you  
Don't let me down, I just found you

It used to be so very hard before  
The life I led it used to be such a bore  
I never worry about the times that's gonna come  
I know it's easy when you love someone, yeah

Don't let me down, I just found you  
Don't let me down, I just found you, yeah

I keep on wishin' that the people out there  
Could have a little bit of the love that we share  
Then the heartache in the faces that I see  
Would fill with laughter like it's meant to be, yeah  
Don't let me down, I just found you  
Don't let me down, don't let me down, I just found you
