

Fire

Jefferson Starship

Fire

Fire

You know there's a fire
You started a fire
Burnin' in my heart
My desire caught fire baby
From just one tiny spark

Now it's outta control
Spreadin' through my soul
It's been deliberately set
Gonna get even hotter yet

Burnin' me up
You started a fire
A burnin' in my heart
You started a fire
Burnin' in my heart and soul

Baby with your love
I burst into flames
When I called out your name
And suddenly I was engulfed

Now my whole life's on fire
Flames keep gettin' higher and higher
In the feat of the night
I get the fever
But it feels all right

Burnin me up
You started a fire
Burnin' in my heart
You started a fire
Burnin' in my heart

Fire

Fire

You know there's a fire

You started a fire baby
Burnin' in my heart
Burnin' in my soul
Burnin' red hot coal

Now I'm really hot
I just can't be stopped
Now it's your turn to burn
Got to learn to walk on fire
Burnin' me up
You started a fire
Burnin' in my heart
You started a fire
Burnin' in my heart
