

Heart Surgery

Jeffree Star

I don't think you're ready for this..
Here we go..

Pink diamonds shining
Fuschia lust
Heart-shaped bruises
For both of us

You see me watching
The lights are low
Your body's waiting
You can't say no

Let me show you how it works..
(Lets get out of here)
I like it hard..

Come on.. Let's get out of here
I wanna take your hand and disappear
Come on.. Let's get out of here
I whisper in your ear.. "I wanna..."

You like it fast..
I like it hard

Mirrors are breaking
Vanity crush
Perfection climbing
All eyes on us

We both stop breathing
The music fades
Hands start touching
Don't be afraid..

Let me show you how it works..
(Lets get out of here)
I like it hard..

Come on.. Let's get out of here
I wanna take your hand and disappear
Come on.. Let's get out of here
I whisper in your ear.. "I wanna..."

You like it fast..
I like it hard
