

## Greatest Love Affair

Jeffrey Osborne

We've seen the brokenhearted  
New loves started and then fade away  
Where love ran out of energy  
Somewhere along the way  
Oh but lady the lessons we have learned  
Have helped us make it  
The mountains we have climbed  
Are far behind

It's been a life Long love song  
With every lyric saying that  
We're still number one  
And now composed our love has grown  
And we have turned a prayer into  
The greatest love affair of them all

And now we both should cherish  
The treasures at the rainbow's end  
The game is finally over  
I knew that we would win  
Oh and lady the lessons we have learned  
Have helped us make it  
The mountains we have climbed  
Are far behind

It's been a life Long love song  
With every lyric saying that  
We're still number one  
And now composed our love has grown  
And we have turned a prayer into  
The greatest love affair of them all

From now on it will be easy  
So easy for you and I  
We've found the purpose and the  
Reason  
The need lives on inside

It's been a life Long love song  
With every lyric saying that  
We're still number one  
And now composed our love has grown  
And we have turned a prayer into  
The greatest love affair of them all
