

Greatest Night

Jeffrey Osborne

The 23rd of June, a freaky full moon
A thousand stars were in the sky
I was out on the town, just kinda walking round
And off the corner of my eye
I saw this lovely face, I turned her way
She smiled at me and walked on
So I ran up to her and introduced myself

That was the greatest night of my life
I fell in love that night
I knew it right away, you only had to say hello
That was a night I'll never forget
That moment we first met
I knew it at a glance
A storybook romance for sure
Oh-whoa-whoa-whoa

The 24th of June, I didn't wake till noon
And frantically I looked around
Hoping I did not lose the paper that I used
To carefully write her number down
I could've pinched myself but I could tell
That somehow I had fallen
Could it have been the moon that drew me to your charm

That was the greatest night of my life
I fell in love that night
I knew it right away, you only had to say hello
That was a night I'll never forget
That moment we first met
I knew it at a glance
A storybook romance for sure
Oh-whoa-whoa-whoa

That was the greatest night of my life
I fell in love that night
I knew it right away, you only had to say hello
That was a night I'll never forget
That moment we first met
I knew it at a glance
A storybook romance for sure, oh

The greatest night of my life
I fell in love that night
I knew it right away, you only had to say hello
A night I'll never forget
That moment we first met
I knew it at a glance
A storybook romance for sure, oh

I just wanna say...

It was the greatest night of my life
I fell in love that night
I knew it right away, you only had to say hello
That was a night I'll never forget
That moment we first met

I knew it at a glance
A storybook romance for sure, oh
