

## Jehovah Jireh Reprise

Jekalyn Carr

I need somebody that knows that He'll provide to lift your voice

Open your mouth and shout, He will provide, He will provide  
Whatever you need Him to do, whatever you need Him to do  
He came to rescue you, He came to break you free  
You ought to open your mouth and shout, He will, He will!

I know He will, I know He will  
I've never seen the righteousness  
I've never seen the righteousness  
You ought to open your mouth right  
There and shout, He won't forsake me  
He won't forsake me

I know He will, He will  
He will, He will, He will, He will, He will  
He will, He will, He will, He will, He will, He will  
I know He will, I know He will, I know He will  
I know that I know, that I know, that I know, that I know  
That I know, that I know, that I know, that I know

He will, He will  
He will, He will  
There is no doubt in the mind

He will, He will  
The same God that brought me out the last time  
And the last time, and the last time, and the last time  
He's going to bring me out this time  
He will, He will  
Know that I know  
Know that I know, that I know, that I know,  
That I know, that I know, that I know, that I know
