Thank you for praying for me
But I need you to praise for me
Grab her by the hand real quick say
Say thank you for praying for me
But if you really love me
I need you to praise for me
Cause if you praise for me
I'll praise for you
And when you praise with me
And I praise for you
We all gon get it
Hold on y'all

They told me that when praises go up prices come down
They told me that when praises go up mortgages come down
I want you to hold the hand one more time of a debt free child
of god
And tell your neighbors say this time
This praise gon cancel all our debts
You ain't no debt right there
Tell him this praise gon take care of the student loan
This praise gon make sure my babies don't even know what a stud
ent loan is
This praise gon make sure

Put your hands together y'all ready

Say clap your hands everybody Everybody clap your hands Clap it like you love Jesus Clap it like you love Jesus Clap it like you love Jesus Clap it like you're born again Clap your hands everybody Everybody clap your hands Clap clap clap clap clap clap Somebody open up your mouth and give god a shout Has he been good to anybody out there I said has he been good to anybody out there You oughta you oughta you oughta
