

Everyone Bleeds

Jelly Roll

You can fly so close to Heaven
Make a million bucks or barely make a living
Riding high or down begging on your knees
Everyone bleeds, everyone bleeds
Just like me

Everybody lies
Everybody picks one side
Everybody cries sometimes
It's just what it is

And everybody hurts
Everybody cuts with words
Everyone don't get what they deserve
But all of us in the end
Go up and come back down
Still want what we ain't found
Sure as the sun goes around
I'm telling you now

You can fly so close to Heaven
Make a million bucks or barely make a living
Riding high or down begging on your knees
Everyone bleeds, everyone bleeds
Just like me
I said, "Just like me."

Everybody dreams, everybody loses sleep
Thinking 'bout the grass more green
Ain't we all the same?
Those mountain highs (Mountain highs)
Those valley lows (Valley lows)
I've lived them both (Lived them both)
And one thing that I know

You can fly so close to Heaven (So close to Heaven)
Make a million bucks or barely make a living (Barely make a living)
Riding high or down begging on your knees (On your knees)
Everyone bleeds, everyone bleeds
Just like me
I said, "Just like me."

Just like me
