

# Explode

Jelly Roll

Explode, explode, explode, explode  
And that's the only way left to go  
Explode, explode, explode, explode  
I'm really out in no time, no

I heard that the liquor and a bag of bud  
Helps me forget what my problems was  
I need a buzz, I need some love  
I need a little something that can pick me up  
Light it up and get so high  
Feel like I can kiss the sky  
And I heard you're so low  
So I don't explode  
How can I continue when I'm dealing with these issues?  
Put my problems in the paper and I roll 'em up  
Ain't no sense in me stressing, I'll just have another session  
Tell 'em I don't give a fuck, I'll take another puff  
Feel like I've been kicked and bruised  
Feel like I'm at the bottom, ain't got shit to lose  
Been flipped and fooled, fuck it I've been tricked and used  
This shit was cool until somebody lit the fuse

Explode, explode, explode, explode  
And that's the only way left to go  
Explode, explode, explode, explode  
I'm really out in no time, no

Eyes half shut  
Windows down with my middle fingers up (With my middle fingers up)  
I'm so sick of bad luck (Bad luck)  
Fuck the world, let me roll one up (Let me roll one up)  
It's just one of those days (It's just one of those days)  
That I don't give a fuck (That I don't give a fuck)  
It's just one of those days (It's just one of those days)  
That I don't give a fuck (That I don't give a fuck)

Listen  
Try'na tell myself that shit' getting better  
But got them demons in my mind, it's like my head is forever  
With this depression at the center of my mental, I've entered  
Into a new dimension, where there ain't a day of sunny weather  
Tried to pull myself up out of it with shit that I'm taking  
With no prescription written in the [?] of medication  
With these downers when I'm down, it's a hell of a combination  
And I'm filling up with stimulants to keep my concentration  
And I've been fighting with my lady a lot  
I can't even tell who's fault it is most of the time  
Got these voices in my head, praying they stop  
Got me crushing down pills and I'm blowing a line with rolled 20s  
Thinking back when I had no money  
Now I got it all, but still feel like there's nobody  
Who could ever understand what I feel inside  
But I'm a Phoenix, so still I rise, it won't stop me
