Jelly Roll

You know somebody once told me that change is the only thing that will never change  
That same person told me that if I want to change my circumstances I'll only change  
when the pain that it will take to change is greater than the pain it actually takes to remain the same  
So sayin' that the horror of my situation has to outweigh the discomfort it will actually take to turn around

I'm feelin like I'm falling  
And everybody keeps callin  
And I don't think they know what  
What I'm going through going through going through  
What about the late nights  
I was chillin at the grave sight  
I'm feelin like I hate life  
This is what I'm going through going through  
What am I gonna do

This for the gangstas in the trap  
This is for all the hustlas  
This for the woman that just struggles as a single mother  
This for the ones house the house livin on the Street  
Because they realize that money doesn't grow on trees  
This for the ones with an addiction Lord open they eyes  
Give them the strength to quit before they overdose and die  
These streets are crazy now  
Lord it's straight insanity  
I done seen prescription pills, ruin a whole family  
My mama doin bad  
My cousin in the pen  
Daddy drinkin again  
Lord let this stress end  
This for the ones that had to bury they best friend  
I'm talkin crew thick  
I'm talkin next to kin

I'm feelin like I'm falling  
And everybody keeps callin  
And I don't think they know what  
What I'm going through going through going through  
What about the late nights  
I was chillin at the grave sight  
I'm feelin like I hate life  
This is what I'm going through going through  
What am I gonna do

She's such a good woman  
Why is she actin foolish  
She coulda went to college  
Coulda been an honor student  
Baby daddy died in the streets  
She ain't deserving that  
Now she's having sex for OC's, Tabs, and Percocet's  
Since the recession can't nobody get a decent job  
So they gotta beat so hard or hit the streets and rob  
They work they ass off but they don't get a day off

If they don't get the payoff they just surrounded by chaos  
What about my 9 to 5's  
About to go insane  
They work they life away  
And still ain't got a fucking thing  
And what about the man that nightly opens up a bottle  
Cuz it's the only way he knows to deal with all his problems

I'm feelin like I'm falling  
And everybody keeps callin  
And I don't think they know what  
What I'm going through going through going through  
What about the late nights  
I was chillin at the grave sight  
I'm feelin like I hate life  
This is what I'm going through going through  
What am I gonna do

Okay I got a deal with triple six and lil white  
But put that to the side this is what I'm livin like  
I got a deal but I'm so broke it isn't funny  
But every time my phone rings they asking me for money  
My niece is 14  
She's having sex  
That isn't cool  
What's even worse she fucked a 24 year old dude  
Wish that I had the power to pull Dre out the grave  
And spend a day going to let him watch his kids play  
I think about Sams every time I write a song  
But I don't take the time to grab the phone and call his mom  
I'm sick to my stomach  
Lord I ain't feelin well  
Had the same nightmare every night they end up killing real  
Struggle got to fear  
Case they want him in a cell  
Searchin for heaven  
Cuz right now I feel I live in hell  
I thank the Lord that every day I'm a man of prayer  
Cuz if it wasn't for God I wouldn't be stayin here  
Stacy lost a sister right in front of her  
That's fucked up  
Wish I could find the dude that killed her  
And go shoot his truck up  
And she keeps calling me  
I know she needs a friend lately  
But I'm so bitter I don't take that to consideration  
Fuck it I'm sorry Stacy  
Love you  
You knew that  
Just call me anytime I'll be there I done proved that  
They say that heaven's for the sinners too  
I hope it's true  
And I'm just tellin y'all what the fuck I'm going through  
You see we fear not the things that we know  
But we only fear what we don't know  
What we're not comfortable with  
We can't see  
What's not tangible to us  
But the Bible says that faith is the substance of things hoped for and the evidence of things not seen  
So sometimes we just have to leap out on a branch of faith  
And we all know God honors faith
