

## Grace

Jelly Roll

Oh, I met you  
Between somewhere and nowhere  
Went all-in on the lonely road  
And we wandered  
Between midnight and sunrise  
Just waiting for the Holy Ghost

Oh, we still tried  
Oh, there's no lies

We find love in the heart of the darkness  
And we find hope when the times are the hardest  
We're just twisted minds and warning signs  
We're broken just the same  
When my devil meets your demons, we can find a little grace  
A little grace  
Just a little grace

It's been heartbreak  
It's been heartaches and mistakes  
Thinking no way we can carry on  
I poison my own soul  
I pushed you, you hold close  
We're burning like coasts  
But all blood runs cold

We find love in the heart of the darkness  
And we find hope when the times are the hardest  
We're just twisted minds and warning signs  
We're broken just the same  
When my devil meets your demons, we can find a little grace  
A little grace  
Just a little grace

We find love in the heart of the darkness  
We find hope when the times are the hardest  
We're just twisted minds and warning signs  
We're broken just the same  
When my devil meets your demons, we can find a little grace  
A little grace  
Just a little grace
