

Hello Darlin'

Jelly Roll

Hello darlin', I don't miss the days that I heard from you often
I've been doing fine without you, thanks for calling
We both know we'll regret this in the morning
But I'll be gone then

Hello darlin', hello darlin'
Hello darlin', hello darlin'
Hello darlin', if we gone do this one last time
Then let's go all in
This gone be a long night baby, thanks for calling

And I've been thinking about it lately
I've been struggling, I've been hustling
I can't shake this feeling for nothing
And it's crazy, tell me have you ever seen a dove cry
Ever heard a breaking heart when a love dies
Feel it coming, swear there'll never be another
But now I'm standing right in front of
The monster I locked in my closet oh so long ago
Maybe I'm being too cautious
But I remember when I lost it
And I just pray this doesn't cost us our souls

And if I'm still here when you wake up from your sleep
I've already fallen in too deep
So take my hand, come on let's dance
It's one night only, it's one last chance
I changed my ways, I'm not that man
But with temptation and I do all I can

Hello darlin', I don't miss the days that I heard from you often
I've been doing fine without you, thanks for calling
We both know we'll regret this in the morning
But I'll be gone then

Hello darlin', hello darlin'
Hello darlin', hello darlin'
Hello darlin', if we gone do this one last time
Then let's go all in
This gone be a long night baby, thanks for calling

Dear departed, my hands folded, hello darlin'
I'm cold hearted, feeling arctic
Wearing your scars like the letter of scarlet
You will burn inside these flames
If you can't find out where it all started
Five years later, I'm still standing
Fighting these demons like a Spartan
Got my sword in karma's carcass
Till that light appears in darkness
Can't afford to pay that cost
That our last rendezvous had cost
I lost everything you gave me, all in vain, that was the hardest
Left me chained and shackled, 1 9 5 0 3, inmate Harness

I ain't going back, you ain't bout to drag me back through the mud
I just made it out of, you don't know me

All money ain't good money
Everything that glitter ain't fish scale, I done heard this tale
Life look a little different on this scale
Learned a lot since the last time we talked
Turn around and walk 'fore a good man dies and it's all your fault

Goodbye darlin', I don't miss the days that I heard from you often
I've been doing fine without you, thanks for calling
We both know we'll regret this in the morning
But I'll be gone then

Hello darlin', hello darlin'
Hello darlin', hello darlin'
Hello darlin', if we gone do this one last time
Then let's go all in
This gone be a long night baby, thanks for calling
