

## Too Far

Jelly Roll

I hope you show up in that black dress  
You know, that one you never keep on too long  
I hope you're with me 'til my last breath  
Like a record to the needle when they playing this song  
You're the only one that could ever play me like I play this guitar  
Baby I ain't dead yet, so go and and smash the pedal in this getaway car  
Let's take it too far, too far  
Too far, mhh

Raised on the west coast, but she's loving my country grammar  
This that true romance, it's like Clarence and Alabama  
Tarantino love stories, so dark and so beautiful  
To ever find a love like this is so unusual  
I know that you're feeling my vibe  
Hop in this truck and let's ride  
Don't give a fuck, I feel the rush  
Let's roll one up and get high  
City to city, baby, we gon' keep those tides turning  
Look in your eyes mama, and I can see that fire burning

I hope you show up in that black dress  
You know, that one you never keep on too long  
I hope you're with me 'til my last breath  
Like a record to the needle when they playing this song  
You're the only one that could ever play me like I play this guitar  
Baby I ain't dead yet, so go and and smash the pedal in this getaway car  
Let's take it too far, too far  
Too far, mhh
