

Give

Jen Foster

[Intro]

Safe between these four walls
It's easy to feel strong
We turn on the TV
And that's when it hits home

[Verse 1]

There's a stranger on the street
Could have easily been me
Stands there with his neighbor
All they own is now gone
He says: "We just feel so grateful
For all who were not lost"
And the man behind the microphone
Says: "What do you do now?"
He says: "You -"

Give

There's always something up our sleeves
Something someone else like me who helps
For we have not lost everything

[Verse 2]

She turns off the TV

Says please take me for a drive
There's someone out there who needs me
Six years old, she's so wise
She says: "'Here's my early birthday wish
Everything I'm gonna get
Let's give -"

[Chorus]

Give
There's always something up our sleeves
Something someone else like me, we give
For we have not lost everything

[Bridge]

Oh, we have not lost everything
When we think we have nothing
It's funny how we find sudden grace
With more than we dream we had inside
And that's the reason why we live
To give
