

Hide

Jen Foster

If you go hide, I'm gonna come find you
If you go hide, I'm gonna find you
And when you get cold, I'm gonna come warm you
When you get cold, I'm gonna warm you
As long as you are alive, I will be close behind
Sure as the angels cry when you disappear
Your heart is just like mine, we live inside small and quiet spaces
They'll never find you here
If you go hide, I'm gonna come find you
If you go hide, I'm gonna find you
And when you go dark, I'm gonna come light you
When you go dark, I'm gonna light you
As long as you are alive, I will be close behind
Sure as the angels fly, we could disappear
Your heart is just like mine, we live inside small and quiet spaces
They'll never find us here
If you go hide, I'm gonna come find you
If you go hide, I'm gonna find you
And every little breath you take
You're breathing your life in me, your secret's alive in me,
You're safe tonight
So when you need a hiding place, it's right here inside of me
Where you don't have to hide
If you go hide, I'm gonna come find you
If you go hide, I'm gonna find you
