

I Believe in This Love

Jen Foster

She asked where I've been these days
I said, I swear, "Lost in the haze
Not your fault, it's just all that I got
It's not you, babe, it's me"
You showed up, my ghost from the past
This coffee shop is where we come back
To begin getting under my skin again
You, I can't possess

And there's nothing left like this wanting
It's complete, it's enough
I believe in this love
And no one gets me undone
It seems it's your love
I believe in this love
I believe in this love

I drove home, tried not to wreck
Our long goodbye, left your lips on my neck
Damn these secrets, I hope that she sees it
I just want free

'Cause there's nothing left like this wanting
It's complete, it's enough
I believe in this love
And no one gets me undone
It seems it's your love
I believe in this love
I believe in this love, ooh

Deep breath, I must meet the truth
I can't live without you
I'll just say it, I'll tell her I'll say it
I believe in this love
I believe in this love, ooh

Here I go, walk out of this door
I can't live like this anymore
You let go, here I go
I believe in this love
I believe in this house
And I'm going back home
Do you believe in this home?
I'm going back home
I believe in you
