

## We Fit

Jen Foster

You left and in my right  
Dawn that breaks the night  
The only one that gets through  
Once, I never thought I'd find  
A heart that beats to mine  
The shoes that I sink into

When I crawl, come close  
It's my truth, but you know  
You just know what I need

I'm a jigsaw puzzle  
Looking for my missing piece  
I'm a kid in trouble  
And you're the one to rescue me  
'Cause I'm an artist  
Looking for my masterpiece  
I'm a prisoner, waitin' for my release  
In a world I need something  
No one else seems to give  
We fit, we fit

Life can be so incomplete  
When we take less than we need  
And give up on forever  
Now, you'll never be alone  
When you hold me, I am home  
You're the closest thing I have

When I crawl, you come close  
You still laugh at my jokes  
You just know what I need

I'm a jigsaw puzzle  
Looking for my missing piece  
I'm a kid in trouble  
And you're the one to rescue me  
'Cause I'm an artist  
Looking for my masterpiece  
I'm a prisoner, waitin' for my release  
In a world I need something  
No one else seems to give  
We fit, ooh, ooh, ooh, ooh, ooh  
Ooh, ooh, ooh

I'm a jigsaw puzzle  
You're my missing piece  
I'm a kid in trouble  
And you're the one to rescue me  
'Cause I'm an artist  
You're my masterpiece  
I'm a prisoner, you're my release  
In a world I need something  
No one else seems to give  
We fit, we fit, we fit, oh, oh
