

Exit Wounds

Jenevieve

You wanted it all
More than what I had I guess
I thought I saw it all, baby
Back against the wall, baby
You told me to stay
Then you went and took my breath away
I learned to love it all, baby
You said catch me if I fall, baby
Don't leave no, no
(I said don't leave on me, baby)
Don't leave no, no, I said

There's no light at the end of the tunnel
But we keep on driving
Talking about the life we wanted

There's no light at the end of the tunnel
But we keep on driving
Talking about the life we want

I couldn't fade out (No)
I couldn't stay out (Couldn't stay out)
I couldn't make out (Couldn't make out)
Without you on my mind
I couldn't fake out (No, I couldn't fake out)
I couldn't break out (No)
It got me laid out (Got me laid out)
You get me everytime

I wanted it all and it slipped right though my fingertips
Something feels wrong, baby
Just tell me what's wrong, baby
You wouldn't believe
All the things he said to me
Now the roles have finally changed
And I'm down on my knees begging

Don't leave no, no
I said don't leave on me, baby
Don't leave no, no, I said

There's no light at the end of the tunnel
But we keep on driving
Talking about the life we wanted

There's no light at the end of the tunnel
But we keep on driving
Talking about the life we want

I couldn't fade out (No)
I couldn't stay out (Couldn't stay out)
I couldn't make out (Couldn't make out)
Without you on my mind
I couldn't fake out (No, I couldn't fake out)
I couldn't break out (No)
It got me laid out (Got me laid out)
You get me everytime

Couldn't fade out
Stay out
Couldn't make out with you, baby
Couldn't fake out
Fake out
Got me laid out
