

MDMA

Jenevieve

So good it's illegal (illegal)
But I know it doesn't mean you'll
Be good like
I need it
So good like
You mean it
We good right?
I mean
Be good to me
Baby be good to me

Didn't have to test my faith
Didn't have to trick my mind
You are like MDMA
The feeling's gonna pass in time

I want this out of my body
You'll still feel it without me

Without without without
Without me
Without without without

So good it's illegal (illegal)
Wanna tell 'em how it feels
We won't last
Will we?
You're the past
I mean
It was good
When we
Felt so good to me
But you're not good for me

Why's something always standing in the way? (run away)
Drugs in your body can complicate
What you think of me
How you treating me
Nights I feel alone
You're so come-and-go

Now you didn't have to test my faith
Didn't have to trick my mind
You are like MDMA
The feeling's gonna pass in time

I want this out of my body
You'll still feel it without me

Didn't have to test my faith
Didn't have to trick my mind
You are like MDMA
The feeling's gonna pass in time

I want this out of my body
You'll still feel it without me

Without without without
Without me
Without without without
