

# Mellow Eyes

Jenevieve

I'm all you need 'cause all I have is love  
I know how you feel, welcome to the club  
This world it isn't for us, they can keep it  
Leave it in a cloud of dust  
I can read your mind and I know you can read mine  
Never would say what I'm thinking 'cause it goes without saying  
Hold the line, stop playing  
I was so hard up until I seen your

Mellow eyes, mellow eyes  
You hypnotize everytime  
When you move slow that's it  
And there's not another soul that can whip it like this  
Soul on ice, soul on ice  
I come to life everytime  
When you move slow that's it  
And there's not another soul that can whip it like this

I just wanna heart to heart  
I don't know where to start  
I'm Lucy in the sky  
I'm learning how to fly  
Step by step  
Won't you follow me  
Baby, come on lean back  
And evaporate

Mellow eyes, mellow eyes  
You hypnotize everytime  
When you move slow that's it  
And there's not another soul that can whip it like this  
Soul on ice, soul on ice  
I come to life everytime  
When you move slow that's it  
And there's not another soul that can whip it like this

Relax yourself, boy, settle like this  
We can just chill and kick it like this  
No loose ends, baby, we been tight knit  
Not another soul can whip it it like this  
Calm down, yeah, avert the crisis  
Simmer down, yeah, I know how life gets  
I won't lie, I feel so special  
When I see your

Mellow eyes, mellow eyes  
You hypnotize everytime  
When you move slow that's it  
And there's not another soul that can whip it like this  
Soul on ice, soul on ice  
I come to life everytime  
When you move slow that's it  
And there's not another soul that can whip it like this  
Mellow eyes, mellow eyes  
That's it
