Midnight Charm

Jenevieve

Between you and me, we should get involved na na na
The things we do, don't tell at all na na na
You got that midnight charm
I got that midnight charm
Took you out of the streets
Kept you in between the sheets
Now baby tell me

Right now right now
I can't stand not knowing whats going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything

Right now right now
I can't stand not knowing whats going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything
So tell me

I couldn't fall in love with someone else
My baby knows me like nobody else
I look around, I'm so good with you
I'm in awe when I look at you

You got that midnight charm
I got that midnight charm
Took you out of the streets
And kept you in between the sheets
Now, baby, tell me

Right now right now
I can't stand not knowing what's going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything
So tell me
Right now right now
I can't stand not knowing whats going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything

Celestial vibes
This is what its like when doves take flight in the bright black sky
Your heart is like the north star
There to guide me
When the world lets me down, you don't take it so lightly
I don't know much
I'm impulsive and always bout it
So so deaf I remember how love sounded
I don't look at you anxious

I feel good
Your beauty is contagious

Right now right now
I can't stand not knowing whats going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything
So tell me
Right now right now
I can't stand not knowing whats going on
The wait is killing me so
Right now right now
I'm gonna make my move
And prove to you that you're my everything

That you're my everything
I don't know what's going on
Baby, you're my everything
