

## Nocturne

Jenevieve

I been seeing double, baby  
I don't need no trouble, I'm in trouble  
Way you move without me, I'm not budging  
If you're all about me, all or nothing

Staying up to wait until  
It's late enough to call you back  
Call you, yeah

And you know it, baby, I keep a light on for ya  
No, I'm not asleep, but you can knock on my door  
Keep me up, keep me up, baby, all night long  
I'm nocturnal

Baby, what's the game?  
Why you always playing?  
Wanna hypnotize, I know you do  
Look me in my eyes, I notice you

Staying up to wait until  
It's late, it's late enough to call you back  
I'm gonna call you, yeah  
I'm nocturnal

And you know it, baby, I keep a light on for ya  
No, I'm not asleep, but you can knock on my door  
Keep me up, keep me up, baby, all night long  
Keep me up, keep me up  
I'm nocturnal

And you know it, baby, I keep a light on for ya  
No, I'm not asleep, but you can knock on my door  
Keep me up, keep me up, baby, all night long  
Baby, all night long  
I'm nocturnal
