

Partycrasher

Jenevieve

Making eye contact, looking like you wanna
Came a long way to put baby in a corner
Thinking 'bout you, but you hardly notice
Tap me on my shoulder like why you so stoic?

I see the way you looking, but you won't talk to me
I know what you're thinking when you put your eyes on me

This party needs you, but you'll never get close to me
This party needs you, but you'll never get close to me

I was leaning in a corner tryna catch a vibe
I'm not lost without you, even when you cross my mind
I feel the world is on fire, know what, know what I'm saying
I been still all night, but my, my heart is racing

I see the way you looking, but you won't talk to me
I know what you're thinking, when you put your eyes on me

This party needs you, but you'll never get close to me
This party needs you, but you'll never get close to me
This party needs you, but you'll never get close to me
This party needs you, but you'll never get close, n-
never get close

Eyes on me
