

# Rendezvous

Jenevieve

When the world is not enough  
I want you, baby, don't fuck up  
Been through this so much before

Just give me a reason  
Just give me a reason  
That I should stay (Should stay, should stay)  
Just say, "Okay" (Okay, okay)  
Just a wait away  
You can turn me on and I wouldn't lie  
I wanna love on you, I wanna take my time

Keeping me up all night long  
Rendezvous, you know my way  
On your knees, you sing my song  
Baby, parlez-vous français?  
No one knows how we do  
Keep it cool, you know why, babe  
If it's only me and you  
Rendezvous, you know my way (My way)

I got a lust for life, butterflies all the time, baby, I'm buzzin'  
And I wanna know what we're gonna do when you come see me  
I want big details

Just give me a reason  
Just give me a reason  
That I should stay (Should stay, should stay)  
Just say, "Okay" (Okay, okay)  
Just a wait away  
You can turn me on and I wouldn't lie  
I wanna love on you, I wanna take my time

Keeping me up all night long  
Rendezvous, you know my way  
On your knees, you sing my song  
Baby, parlez-vous français?  
No one knows how we do  
Keep it cool, you know why, babe  
If it's only me and you  
Rendezvous, you know my way (My way)

Waiting on you, mm-yeah, you comin' home  
Yeah, touch my shoulder, mm-yeah, rub my shoulders (Mm-yeah)  
What we gonna do? Yeah  
Unless  
He's so fine, I confess  
Damn it, babe, I want that  
And I want you to know  
That I wanna be your baby girl  
On and on, yeah, je suis content  
Waiting to love you, baby  
Yeah

Keeping me up all night long  
Rendezvous, you know my way  
On your knees, you sing my song

Baby, parlez-vous français?  
No one knows how we do  
Keep it cool, you know why, babe  
If it's only me and you  
Rendezvous, you know my way (My way)

My way, come my way (Baby)  
Do that thing, do that thing  
My way, my way
