

Maybe Maybe

Jenna Davis

Hanging on the porch steps
Headlights shining on my face
It's a school night, mama's yelling that it's late
I'm trying to play it cool

I put my hair up
With the necklace that you gave
And the black dress
That I wore on our first date
Trying to play it cool

Maybe maybe
Let's go out and see the town
Maybe maybe
Find a spot no one knows about
Maybe maybe
We could throw a blanket down
Don't really matter
When I'm with you

When I'm with you

Middle of the driveway
Standing outside in the rain
Our lips get closer
And everything falls into place
If I could I'd hit replay

Maybe maybe
Let's go out and see the town
Maybe maybe
Find a spot no one knows about
Maybe maybe
We could throw a blanket down
Don't really matter
When I'm with you

When I'm with you

Maybe maybe
Drive to where the river bends
Maybe maybe
Restart our song again
Maybe maybe
Make a night we won't forget
Don't really matter
When I'm with you
Maybe maybe
When I'm with you
Maybe maybe
Maybe maybe
When I'm with you
