I'm happy you're happy
I'm psyched you found someone, ah
Good for you, only took you
Two whole months to move on

No regrets, let's be friends
Like it was no one's fault
No grudges, I ain't judgin'
No hard feelings at all

Sike, I kinda hate you
You're the worst phase that I ever been through
Oh my, what was I thinkin'?
You ain't even fun when you're drinkin'
I hate to break the news to you
But your personality sucks
I wish the two of you love
And that you'll never break up

Sike

Tell your friends I'll miss them
And all the lies they spun
I'll take the high road
'Cause even I know
A girl's gotta bite her tongue, ah

Sike, I kinda hate you
You're the worst phase that I ever been through
Oh my, what was I thinkin'?
You ain't even fun when you're drinkin'
I hate to break the news to you
But your personality sucks
I wish the two of you love
And that you'll never break up
