

## Under The Surface

Jenna Davis

I'm not like her you see  
I keep my boundaries  
Cause I'm fine in my jeans and this old tee  
Facing reality when I'm with you  
Three that you like her and not me

But it's hard to keep my mouth shut  
When I know so much about you  
It's hard to say I don't care  
When all I do is just stare around you

I know we'd go together  
So much better than you two  
Cause she doesn't your middle name  
Or how you tie your shoes

The face you make behind your mates  
When they're mad at you  
She doesn't know you flip your hair  
When you are nervous  
Or how you really are  
Under the surface

I'm not like her you see  
She found love at fifteen  
Cause I'm fine in my jeans  
And this old tee  
Facing reality when I'm with you  
Three that you like her and not me

But it's hard to keep my mouth shut  
When I know so much about you  
It's hard to say I don't care  
When all I do is just stare around you

I know we'd go together  
So much better than you two  
Cause she doesn't your middle name  
Or how you tie your shoes

The face you make behind your mates  
When they're mad at you  
She doesn't know you flip your hair  
When you are nervous  
Or how you really are  
Under the surface  
Under the surface

I know we'd go together  
So much better than you two  
Cause she doesn't your middle name  
Or how you tie your shoes
